

Prof. Adiel (Ady) Stern – CV

August 2018

Adiel (Ady) Stern was born and raised in Beer-Sheva, and presently lives in Tel-Aviv. he studied in Tel-Aviv University for a B.Sc. in Mathematics, Computer Science and Physics, and for a Ph.D. in Physics. Following his Ph.D. he spent three years as a Junior Fellow at the Harvard Society of Fellows, and at the end of these three years he joined the Weizmann Institute as a faculty member.

Prof. Stern is a theoretical physicist, interested mainly in the various ways in which quantum theory is reflected in the behavior of electronic systems. In his scientific work, Prof. Stern emphasizes the search for clear physical interpretations to complex phenomena. Somewhat connected, his hobby is the popularization of science.
